

ELECTRONIC FEDERAL TAX PAYMENT SYSTEM FINANCIAL INSTITUTION HANDBOOK

Your guide to federal tax payment services.

This handbook is designed to help you assist business and individual customers with their federal tax payments.

The Electronic Federal Tax Payment System (EFTPS), a free service of the U.S. Department of the Treasury, can be used to pay any federal tax. EFTPS is the world's largest tax collection system which includes both phone and Internet options.

Federal taxes may also be paid via Fedwire®. Since fees are involved, this option is typically used as a backup for ACH transactions or when a taxpayer needs to make a deposit on the due date.

CUSTOMER-INITIATED PAYMENTS

The Electronic Federal Tax Payment System (EFTPS) provides convenient, free ACH Debit services 24/7, 365 days a year. Your customers can schedule their own payments via **EFTPS.gov** or with the EFTPS voice response system if they have enrolled.

EFTPS accepts same day payments for business and individual tax payments that meet the following criteria:

- 1 Payment is \$1,000,000 or less and
- 2 Payment is submitted prior to 3:00 PM ET on a business day.

Business tax payments that do not meet the first criteria above must be scheduled at least one calendar day before the tax due date by 8:00 PM ET to reach the Internal Revenue Service (IRS) on time

PLEASE NOTE: Customers **cannot use your standard online bill payment service** to initiate an e-payment or e-check payable to Treasury or the IRS for tax payments.

HOW EFTPS MAKES TAX PAYMENTS EASIER

- 1 Business and Individual customers can schedule payments up to 365 days in advance
- 2 Up to sixteen months of payment history can be viewed online
- 3 U.S.-based, live support is available 24/7 at:
 1.800.555.4477 (English)
 1.800.244.4829 (Spanish)

ENROLLMENT OPTIONS

ONLINE:

Step-by-step enrollment is available at **EFTPS.gov**. Enrolled customers will receive their Personal Identification Number (PIN) in the mail within seven business days.

Go to **EFTPS.gov** and click on “Log In.” Click on “Need a Password.” Customers will then enter their EIN or SSN and PIN. They will verify their banking information or EFTPS enrollment number and then create their Internet password.

MAIL:

Customers who complete a paper EFTPS enrollment form (IRS Form 9779 for businesses; Form 9783 for individuals), and mail it in will receive their PIN within two weeks after EFTPS receives the form. Customers can order forms by calling the IRS 1.800.829.3676. The forms will be received in 7 to 15 days.

NOTE

If a customer doesn't receive a PIN and two weeks has passed, advise him or her to call EFTPS Customer Service:

1.800.555.4477 (English)

1.800.244.4829 (Spanish)

PAYMENTS

To schedule a payment, customers will be prompted to provide:

- 1 The type and amount of each payment
- 2 The date the payment is due:
 - Business and individual payments may be scheduled up to 365 days in advance

EFTPS accepts same day payments for business and individual tax payments that meet the following criteria:

- 1 Payment is \$1,000,000 or less and
- 2 Payment is submitted prior to 3:00 PM ET on a business day.

Business tax payments that do not meet the first criteria above must be scheduled at least one calendar day before the tax due date by 8:00 PM ET to reach the Internal Revenue Service (IRS) on time

After completing each transaction, customers will receive an Acknowledgment Number.

FAILED EFTPS PAYMENTS

Financial institutions may return a payment for a variety of reasons. For example, customers with insufficient funds in their accounts will receive a failed payment.

EFTPS TIP

After receiving their PIN, customers may schedule payments at **EFTPS.gov** or via the telephone voice response system.

ACH CREDIT FOR BUSINESS PAYMENTS

Some business customers may ask you to initiate tax payments on their behalf with ACH Credit, as this option is included in the EFTPS enrollment process. These customers will need to be enrolled in EFTPS to be eligible for ACH Credit.

Financial institutions offering this optional service typically transmit these payments to EFTPS using third-party software or services.

There is no requirement from Treasury that you initiate ACH Credit payments for your customers.

PLEASE NOTE: If you are interested in exploring this option, be aware that acquiring and setting up such software or services may take a few months.

SETTING UP ACH CREDIT TAX PAYMENT SERVICES

EFTPS must receive your customers' ACH Credit tax payments by 2:15 a.m. ET on the due date. Please contact your local Federal Reserve Bank to confirm ACH deadlines.

- Ensure that payments are directed to EFTPS—not the IRS—for posting by the tax due date
- Provide customers with an Acknowledgment of Receipt so they can verify on-time tax payments online or by phone

Details of record formats required for EFTPS ACH Credit payments can be found on pp. 4–7 of this handbook.

DELAYED ACH CREDIT

You may be held responsible for a late tax payment if:

- 1 A customer has provided instructions for an ACH Credit payment before the due date
- 2 Your institution does not send the payment on time

ACH Credit liability for a financial institution is somewhat different from liability for ACH Debit. With ACH Credit, if the customer can prove the instructions were delivered to the financial institution by its deadline and the payment was not sent, the IRS may abate the customer's penalty. Treasury may also make a value-of-funds adjustment on the financial institution due to the delay. Please review your ACH agreements to make sure you have provisions and clauses regarding penalties, both to you and your customers.

For further assistance, contact the EFTPS Financial Institution Helpline at **1.800.605.9876**.

NOTE

Taxpayers are ultimately responsible for timely payment of their taxes. Treasury strongly encourages all taxpayers to enroll on the EFTPS website which utilizes the ACH Debit payment options so that they may use the EFTPS.gov or voice response system in case of a circumstance such as an outage within your system or a natural calamity that renders your service unusable when taxes are due.

CCD + TXP ADDENDA RECORD FORMAT

The following is an explanation of the ACH Credit record layout as it pertains to EFTPS. Any fields not specifically identified below should be formatted according to NACHA Operating Rules (NACHA Operating Rules are available from NACHA or your local ACH association).

- 1 TXP02 Refer to the IRS Tax Form Numbers on pp. 19-24.
- 2 TXP04, 06, 08 Tax information ID numbers are for filing Tax Form 720, 941, and CT-1. Enter the exact one-, two-, or three-digit code with no leading or trailing spaces. pp. 19-24
- 3 TXP05, 07, 09 If amounts are entered in these fields, they must total the sum in field 6 of the detail entry record.
- NOTE:
- TXP01, TXP02, TXP03, TXP04, and TXP05 are required fields. If there are no subcategories to report, the tax type is repeated in TXP04 and the total dollar amount from the "6" Record is repeated in TXP05.
 - The addenda record requires 80 characters in field 3. Data in field 3 should be left justified and end with the terminator "|". Spaces after the "|" up to field 4 are blank filled.
 - Since you cannot have more than 3 subcategories per CCD addenda record, a new record must be created if there are more than 3 subcategories to report.
 - The amount in field "6" of the 6 Record must equal the sum of the amounts in the TXP segments for all tax types that report subcategories.
 - The illustrations above relate to the specific applications outlined and are not intended to depict situations that will always be appropriate.

US Treasury Tax Payments Format Requirements in pacs.008 (Effective July 14, 2025)

This document provides guidance on how to format a customer credit transfer message (pacs.008) for sending US Treasury Single Payer tax payments via the Fedwire® Funds Service in accordance with the new ISO 20022 format. The following edits apply when sending US Treasury tax payments. The Fedwire system will reject transactions that fail to comply with these edits. For FedLine Advantage users, please reference *US Treasury Tax Payment Message* screens on the FedLine system. For FedLine Direct users, please also see the full ISO Xpath below.

pacs.008 Component	Pacs.008 Data Element	Requirements
Payment Type Information	Local Instrument/Proprietary	Must be CTRC (Core Customer Transfer)

- [1] Financial institutions that the US Treasury has approved as “bulk providers” should reference the Fedwire Funds Service ISO 2022 usage guidelines for the pacs.008 message to obtain the US Treasury routing number for bulk tax payments. This information can be found in the Tax Remittance component within the Remittance Information component.
- [2] The four character Name Control is no longer applicable for pacs.008 messages. Name Control will be derived from the first four characters of the Creditor Name element. For business taxpayers, Creditor Name should contain the Business Name. For individual taxpayers, Creditor Name should contain taxpayer Last Name, First Name.
- [3] The Creditor Agent is mandatory in a pacs.008 message and therefore required in a US Treasury tax payment message. Because you cannot use a BIC as the Financial Institution Identification (i.e., because the US Treasury is identified with a routing number) you must include Name and Postal Address. For illustrative purposes, we are using the structured postal address data elements, but you may use the unstructured Address Line element.
- [4] No more than one occurrence of Structured/Tax Remittance is allowed for tax wires.

Reference Federal Reserve Bank's ISO 2022 Fedwire specifications for further details.

With the ISO 2022 implementation, Name Control and Internal Revenue Service's Account Number are no longer required for tax payments.

Any Fedwire participating financial institution can make a same-day tax wire payment. Wires (Fedwire Typecode 1000) must be received by the Federal Tax Collection Service (FTCS) by 5 p.m. ET on the due date to be timely with the IRS. Please be sure your own deadline is earlier so you have time to prepare the wires. Payments cannot be warehoused; if the liability is known at least one day in advance, the payment should be made via ACH Debit or Credit.

PLEASE NOTE: Same-day tax wires are intended only for extraordinary circumstances in which a payment cannot be scheduled earlier. Wire fees may be applied and passed on to your customers. Be aware that same-day tax wires are used primarily by businesses; except in the case of very large dollar amounts, individuals have the option of sending a check with their return to the IRS if the envelope is postmarked on the tax due date.

REFERENCE NUMBERS

Treasury regulations require you to provide customers with the following two numbers for proof of payment if requested:

- 1 The Input Message Accountability Data (IMAD) number assigned by the instructing party
- 2 The 15-digit Electronic Funds Transfer (EFT) number assigned by the FTCS

- If the reference numbers are needed, contact FTCS at **1.800.382.0045** or **1.314.425.1810**
- Customers enrolled in EFTPS may access this information after the payment date through **EFTPS.gov** or by calling EFTPS at **1.800.555.4477**

PROCESSING DEADLINES

- Fedwire operations begin at 9 p.m. ET (for the next business day)
- FTCS processing hours are from 8:30 a.m. to 5 p.m. ET
- Same-day transactions sent before 8:30 a.m. ET are queued for processing when FTCS opens for the business day

REJECTED TRANSACTIONS

- Payments are rejected if they are received between 5 p.m. and 9 p.m. ET
- Transactions are also rejected if they contain formatting errors
- Rejected transactions are returned via a Fedwire Typecode 1002 wire with an explanation for the rejection

If a same-day payment is rejected and returned, you may correct and resubmit it to FTCS before 5 p.m. ET. Late transactions may be submitted the next business day but may be subject to IRS penalties.

REVERSING A TRANSACTION

- You may request a reversal by transmitting a Fedwire 1001 or 1007 message to the FTCS within five business days of the original transaction
- The entire dollar amount of the transaction must be reversed
- After five business days, reversals are managed by the IRS. To request a reversal, call **1.800.829.4933** Monday through Friday (except federal holidays).

EFTPS TIP

For help with formatting, reversals, or wire receipt confirmation, contact FTCS at **1.800.382.0045** or **1.314.425.1810** from 8:30 a.m. to 7 p.m. ET M–F.

NAME CONTROL JOB AID

The four character Name Control is no longer applicable for pacs.008 messages (effective July 14, 2025). Name Control will be derived from the first four characters of the Creditor Name element. For business taxpayers, Creditor Name should contain the Business Name. For individual taxpayers, Creditor Name should contain taxpayer Last Name, First Name.

The name control consists of up to four alpha and/or numeric characters. It can be determined from the information specified on the first name line. Generally, the name control is derived from the first four characters of the business name. Self-employed businesses generally use the owner's name as their legal name so the name control would be the first four characters of the taxpayer's last name. An ampersand (&) and hyphen (-) are the only special characters allowed in the name control. The name control can have fewer but no more than four characters. Blanks may be present only at the end of the name control.

Note: Do not include "dba" as part of the name control. These initials stand for "doing business as."

BUSINESS NAME CONTROL VALID CHARACTERS:

- Numeric (0-9)
- Alpha (A-Z)
- Hyphen (-)
- Ampersand (&)

SPECIAL BUSINESS NAME CONTROL RULE:

If an invalid character is used in the name line, drop the special character from the taxpayer's name. Example: Joe.com should be "JOEC" Another example is 4U.com. The name control should be "4UCO"

BUSINESS NAME CONTROL MATRIX

Name Control Underlined	Name Control Rule	Rule
<u>Sumac</u> Field Plow Partnership <u>11th</u> Street LLC <u>P & P</u> Consulting <u>Y-Z</u> Drive LLP <u>ZZZ</u> Club <u>John</u> Hackberry LLP <u>ELM</u> <u>OAK!</u> Tree	SUMA 11TH P&PC Y-ZD ZZZC JOHN ELM OAKT	Derive the name control from the first four significant characters of the business name. Blanks may be present only at the end of the name control.
The <u>Willow</u> LLC The <u>Hawthorn</u>	WILL THEH	When determining a business's name control, include the word "The" when it is followed by only one word.
John <u>What</u> & Mary Who <u>Hawthorn</u> , Willow & Hackberry	WHAT HAWT	Determine the name control from the first four letters of the first partner's last name.
Michael Woods & Joseph Light, Ptrs dba <u>M&J</u> Furniture	M&JF	If the business or a trade name is present and it can be determined that the trade name is for a partnership, follow the Name Control procedures for partnerships. Derive the name control from the first four significant characters of the business name. Blanks may be present only at the end of the name control.

SINGLE-BUSINESS TAXPAYER: {4200} BENEFICIARY FIELD

The information will not be edited by Fedwire but may be rejected by FTCS for failing IRS edits.

Do not use spaces or dashes in this field.

A colon (:) must follow each subfield, including the last subfield.

Rejected transactions are returned promptly to the originating FI with a message providing the reject reason.

REQUIRED {4200} BENEFICIARY SUBFIELDS—SINGLE-BUSINESS TAXPAYERS

SINGLE-BUSINESS {6000} ORIGINATOR TO BENEFICIARY FIELD

The Originator to Beneficiary field is reserved for information about tax, interest, penalty, and subtypes for tax types 720, 941, 944, and CT-1 (abstracts and subcategories). **This is optional information.**

The sum of tax, interest, penalty, and/or subtype subfields must equal the total amount of the Fedwire. If the sum does not equal the total dollar amount of the Fedwire, the transaction will be reported to the IRS as only the tax amount. A colon (:) must follow each subfield, including the last subfield. Fedwire will not edit this information, but the FTCS will. Certain errors may result in incorrect reporting of tax information to the IRS.

See page 24-30 for subtype / subcategory codes.

Subfield	Description	Example
T	Tax Amount	<p>The dollar amount of the tax obligation.</p> <ul style="list-style-type: none"> The letter T, a dollar sign (\$), the dollar amount with a decimal point, and final colon are required to designate the tax amount subfield. <p>EXAMPLE: T\$10000.00: or T\$10,000.00:</p> <ul style="list-style-type: none"> The tax amount may be further subdivided into tax subtype (abstract and subcategory) amounts.
I	Interest Amount	<p>The dollar amount of an interest payment. The interest amount is reported separately from the tax and penalty amount.</p> <ul style="list-style-type: none"> The letter I, a dollar sign (\$), the dollar amount with a decimal point, and final colon are required to designate an interest amount subfield. <p>EXAMPLE: I\$50000.00: or I\$5,000.00:</p>
P	Penalty Amount	<p>The dollar amount of a penalty payment. The penalty amount is reported separately from the tax and interest amounts.</p> <ul style="list-style-type: none"> The letter P, a dollar sign (\$), the dollar amount with a decimal point, and final colon are required to designate a penalty amount subfield. <p>EXAMPLE: P\$10000.00: or P\$1,000.00:</p>

The FI can create a separate Fedwire to pay only interest or penalties, using the appropriate tax type code in the {4200} Beneficiary field.

Page 31 includes a **Taxpayer Worksheet** and a subset of the **most common IRS Tax Types**, which the FI may copy and provide to the business taxpayer for providing complete and accurate information to the FI.

For a list of the most common IRS tax types and subtypes, see pages 24–30.

Note: These rules are specific to FAIM and will only be applicable until July 14th, 2025, after which time the new ISO formatting specifications will be required.

- [1] Financial institutions that the US Treasury has approved as “bulk providers” should reference the Fedwire Funds Service ISO 20022 usage guidelines for the pacs.008 message to obtain the US Treasury routing number for bulk tax payments. This information can be found in the Tax Remittance component within the Remittance Information component.
- [2] The four character Name Control is no longer applicable for pacs.008 messages. Name Control will be derived from the first four characters of the Creditor Name element. For business taxpayers, Creditor Name should contain the Business Name. For individual taxpayers, Creditor Name should contain taxpayer Last Name, First Name.
- [3] The Creditor Agent is mandatory in a pacs.008 message and therefore required in a US Treasury tax payment message. Because you cannot use a BIC as the Financial Institution Identification (i.e., because the US Treasury is identified with a routing number) you must include Name and Postal Address. For illustrative purposes, we are using the structured postal address data elements, but you may use the unstructured Address Line element.
- [4] No more than one occurrence of Structured/Tax Remittance is allowed for tax wires.

Reference Federal Reserve Bank’s ISO 20022 Fedwire specifications for further details

With the ISO 20022 implementation, Name Control and Internal Revenue Service’s Account Number are no longer required for tax payments.

INTERNATIONAL TAX PAYMENTS

Taxpayers living overseas must have a U.S. bank account to use EFTPS. Financial institutions located outside the U.S. may assist taxpayers with federal tax payments with the help of a Qualified Intermediary.

WHAT IS A QUALIFIED INTERMEDIARY?

A foreign bank, investment firm, or financial institution may apply to the IRS to become a Qualified Intermediary (QI), which may withhold U.S. federal taxes for taxpayers and assume primary responsibility for paying these taxes with EFTPS.

Typically, this service is provided to:

- 1 Companies with overseas offices staffed with expatriates from the U.S.
- 2 Non-U.S. citizens with investments taxed in the U.S.

QIs may also use a SWIFT message to instruct a U.S.-based correspondent financial institution to initiate a Fedwire funds transfer.

To learn more about Qualified Intermediaries, visit

[www.irs.gov](https://www.irs.gov/businesses/international-businesses/qualified-intermediaries) > Businesses > International Businesses > Qualified Intermediaries (QI).

The first four positions of the FI Tax Code (as shown above) are the actual form you are filing in most cases. Example: If you wish to designate your payment for a Form 941 penalty, you would place 94109 in the addenda field TXPO2. If you are paying an amount due on an IRS notice that includes penalty or interest, it is not necessary to split the payment. Use tax type 94107 to pay the entire amount of a Form 941 notice.

**Those tax type codes ending in "7" include Installment Agreement payments.

‡The tax period month must match the company's fiscal year for these forms.
